Welcome to the TruHealth Lifestyle

Congratulations on taking the first step toward a healthier, more vibrant you! The TruHealth System is your partner in helping you achieve more balance, vitality, and confidence. This guide will show you how our three transformative products can work together to support your goals and help you embrace a lifestyle of wellness that helps you thrive.

This journey isn't about chasing numbers on a scale. It's about waking up refreshed, feeling amazing in your favorite outfit, and reclaiming the confidence that comes from knowing you're taking care of yourself. Let's make this transformation about more than just weight—let's make it about self-love, self-care, and the strength to feel your best every single day.*

Why It Works: Your AI Coach adapts to your needs and preferences, offering personalized advice and encouragement.

How To Use It: Engage with your AI Coach daily. Share your progress, and questions, and get tips for success.

The TruHealth™ System Overview

DETOX.* NOURISH.* TRANSFORM.*

Why It Works Together

The TruHealth System isn't just three products—it's a holistic approach to transformation. Together, Cleanse, Shake, and Satiety form a powerful synergy.*

While some products often focus on appetite control and blood sugar regulation, TruHealth System, now featuring the breakthrough science of Satiety, takes a broader approach. By also emphasizing cellular health, immune support, and comprehensive digestive wellness, it becomes part of an overall wellness strategy.*

CLEANSE: Your first step to reset. Gently supports your body's natural detoxification process, helping to eliminate impurities and reduce feelings of bloating, while nourishing cellular and gut health.*

SHAKE: Fuels your body with plant-based protein, fiber, and essential nutrients to promote fullness, energy, and healthy body composition.*

SATIETY: Empowers you to take control of your appetite, supporting natural feelings of fullness and optimized metabolism, making it easier to maintain your wellness goals.*

Flexibility: This guide is here to support your journey—not restrict it. Think of it as a flexible framework, not a rigid set of rules. You can tailor the routine to suit your goals, lifestyle, and preferences. Whether you're using one shake a day or two, or doing a full cleanse week or a lighter reset, you're in control of your wellness path.

*These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure or prevent any disease.

It's a complete system that works with your body, helping you feel your best from day one to day ninety—and beyond.

Quick Start Checklist:

- ☐ Order 2 bottles of Satiety if taking full dosage.
- ☐ If doing full cleanse week, order 2 boxes of Cleanse.
- ☐ You'll need 1-2 canisters of Shake depending on your daily routine.
- ☐ Keep a water bottle with you—hydration is key!
- ☐ Use the AI Coach "Tru" for extra guidance anytime.

**HEY TRU, HELP ME MAKE A DAILY ROUTINE
WITH MY TRUHEALTH PACKAGE**

Cleanse Format UPDATE

**CLEANSE YOUR WAY TO A
FRESH START***

Eliminate, Reset, and Feel Lighter*

Why it works:

The CLEANSE supports detoxification and liver health, which paves the way for better whole-body wellness.*

- Supports the body's natural detoxification processes.*
- Nourishes with alkalizing greens and enzymes.*
- Helps reduce bloating and supports gut health.*

The **Cleanse** product is now offered in convenient stick packs, perfect for on-the-go use. One box covers a gentle maintenance plan. If you're doing the full Reset Phase (up to 4 per day), plan to have two boxes on hand.

*These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure or prevent any disease.

how to use CLEANSE

During the first week, follow the deep cleansing directions on the label, taking 1 slimstick up to four times a day on an empty stomach.

Afterward, maintain your momentum with one slimstick per day to help keep your body feeling lighter and refreshed.*

TruHealth SHAKE

**FUEL YOUR BODY WITH
NUTRIENT-DENSE GOODNESS***

**Delicious, Satisfying,
& Energizing***

Why it works:

Power-packed and nutrient-dense, SHAKE was designed to help keep you energized and full while providing essential nutrients to help fuel your body.*

- Delivers all nine essential amino acids to fuel muscle recovery, strength, & overall vitality.*
- Prebiotic fiber for digestive & gut health.*
- High-protein, plant-based shake for muscle support & cravings control support.*
- Promotes energy & recovery.*

Use Shake 1-2 times daily or sub in a clean, balanced meal if preferred. The key is sticking to nutrient dense, low-glycemic choices.

*These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure or prevent any disease.

how to use **CLEANSE**

Just mix with water or your favorite non-dairy beverage for a delicious, nutritious boost. Enjoy once or twice daily to provide a tasty energy boost mid-morning or post-workout, for example.*

TruHealth SATIETY

**HELP TAKE CONTROL OF YOUR
CRAVINGS & METABOLISM***

Feel Full,
Stay On Track*

Why it works:

The new star of the TruHealth System, SATIETY is a breakthrough supplement Powered by the MetaboBiome™ proprietary Blend, to help deliver targeted support for weight management and metabolic benefits.*†

- Supports natural appetite control to help manage hunger*
- Helps maintain a healthy metabolism for sustained energy and wellness.*
- Supports healthy lipid metabolism.*
- Promotes feelings of fullness making it easier to follow your reduced-calorie diet strategy.*
- Supports healthy blood sugar already in the normal range.*

Dosing Reminder:

Many people start with 2 capsules per day and increase to 4 as their routine builds. Taking the full 4 capsules daily? You'll want to have 2 bottles of Satiety per month to stay on track.

*These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure or prevent any disease.

†When taken as directed and in conjunction with a reduced-calorie diet and exercise.

how to use **SATIETY**

Take two capsules 20-30 minutes before a meal for optimal results. Feel the power of natural appetite control and optimized metabolism.* *Do not exceed 4 capsules daily.*

Beyond Immediate Effects: Supports digestive health, immune system health, and cellular function for sustained benefits.*

Enhanced Absorption Technology: Thymoquinone uses BioSNEDDST[™] for maximizing absorption.*

Comprehensive Wellness: Supports metabolic processes and overall vitality, promoting a full-body approach to long-term health and well-being.*

The MetaboBiome[™] Proprietary Blend combines Dihydroberine, N-Acetyl-D-Glucose and Thymoquinone to support Metabolic health.* Additionally, it includes Konjac Gum (glucomannan) and Manapol[®] aloe vera extract to promote digestive wellness.*

MORE THAN WEIGHT MANAGEMENT : A HOLISTIC APPROACH TO WELLNESS

feel amazing*

It's not all about the numbers —it's about how you feel in your own skin. Whether it's waking up with energy or feeling confident in your favorite jeans, this journey is all about you.

track your glow up

Snap that “before” pic and jot down your wins along the way. Progress isn't just what you see—it's how you feel. Celebrate every step, big or small.

*These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure or prevent any disease.

find your cheer squad

Invite your friends and family to join in. Wellness is contagious, and nothing beats having a hype crew to celebrate your journey with you.

eat like you love yourself

Stick to simple, delicious meals that fuel your body and keep you feeling amazing. Think vibrant veggies, proteins, seasonings to create meals you'll actually look forward to because they taste and are good for you.

remember your why

Maybe it's more energy, feeling strong, or showing up as your best self. Whatever it is, hold on to it—it's what makes this transformation yours.

ACHIEVING A CALORIC DEFICIT WITH TRUHEALTH

A key part of any weight management journey is achieving a caloric deficit—that means consuming fewer calories than your body needs to maintain its current weight. When you create a deficit, your body uses stored fat as energy, leading to healthy and sustainable weight loss.

Remember, TruHealth™ Satiety can help you control your appetite, making it easier to stick to your calorie goals without feeling deprived.* Combine it with a balanced reduced-calorie diet and active lifestyle for optimal results.*

*These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure or prevent any disease.

How to Create a Caloric Deficit:

Know Your Caloric Needs:

Your body requires a certain amount of calories to perform daily functions, from breathing to walking. This number varies depending on factors like age, activity level, and body composition.

Reduce Calorie Intake Mindfully:

Aim for a moderate deficit—500 to 700 calories a day is a safe and effective range. Use TruHealth Satiety to help manage your appetite and reduce cravings, making it easier to stick to your goals.

Fill Your Plate with Nutrient-Dense Foods:

Choose foods that are low in calories but high in nutrients, such as fruits, vegetables, lean proteins, and whole grains. These help you stay full and energized while supporting your caloric deficit.

Stay Active:

Regular exercise helps burn more calories, allowing you to maintain a deficit more easily without feeling restricted.

TruHealth™ Tracker

WELCOME TO YOUR TRUHEALTH JOURNEY

This tracker is your step-by-step guide to staying on course, making real progress, and feeling great along the way. Follow the plan, track your progress, and celebrate your wins!

WEEK ONE: RESET & CLEANSE

Kickstart your transformation with a full-body reset! This week focuses on cleansing and hydration to prepare your body for optimal results.

DAILY ROUTINE (REPEAT FOR 7 DAYS)

MORNING

- Drink 16 oz of water upon waking
- Take 1 TruHealth Cleanse Drink Mix on empty stomach
- Take 2 SATIETY Capsule (take 20-30 min before consuming SHAKE)
- 1 TruHealth SHAKE

MID-MORNING

- Drink 16 oz of water
- Take 1 TruHealth CLEANSE Drink Mix (on an empty stomach)

AFTERNOON

- Eat a low-glycemic meal (protein, healthy fats, veggies)
- Drink 16 oz of water
- Take 1 TruHealth CLEANSE Drink Mix

EVENING

- 30+ minutes of exercise (brisk walking, squats, etc.)
- 1 TruHealth SHAKE
- Take 1 TruHealth CLEANSE Drink Mix before bed

- ✓ DECIDING TO MAKE A CHANGE
- MONDAY
- TUESDAY
- WEDNESDAY
- THURSDAY
- THURSDAY

Important Supply Note: To follow the plan as outlined, if you choose to take TruHealth Satiety™ at the full dose of 4 capsules per day (2 before lunch, 2 before dinner), you will need 2 bottles per month. If you are following the Cleanse week using up to 4 servings per day, you will need 2 boxes of Cleanse Stick Packs (formerly offered as a canister).

CHECK IN

How do you feel this week? Any improvements in energy or digestion? **Circle: Tired | Okay | Energized**

WEEK TWO - FOUR: NOURISH & BUILD

Now that your body is primed, let's fuel it with nutrients and structure!

DAILY ROUTINE (REPEAT FOR DAYS 8-30)

MORNING

- Drink 16 oz of water
- 1 TruHealth SHAKE

AFTERNOON

- Drink 16 oz of water
- Take 2 SATIETY capsules

MID-MORNING

- Drink 16 oz of water
- Take 2 SATIETY capsules

EVENING

- 30+ minutes of exercise (brisk walking, squats, etc.)
- 1 TruHealth SHAKE

CHECK IN

How do you feel this week? Any improvements in energy or digestion? **Circle: Tired | Okay | Energized**

TruHealth Cleanse drink is designed to be consumed as part of the 30-day program. For those choosing to enjoy up to four servings per day, you will need two boxes. If you choose to take Satiety Capsules twice daily (4 capsules total) you will need two bottles.

WEEK FIVE & BEYOND: MAINTAIN & THRIVE

Healthy living isn't a 30-day fix—it's a lifestyle! Let's keep it going.

DAILY MAINTENANCE PLAN

- CONTINUE 1-2 TRUHEALTH SHAKES PER DAY
- EAT BALANCED, LOW-GLYCEMIC MEALS
- USE TRUHEALTH CLEANSE 1-2X PER WEEK FOR ONGOING GUT SUPPORT*
- STAY ACTIVE – AIM FOR 30 MINUTES OF MOVEMENT DAILY
- HYDRATE! DRINK PLENTY OF WATER EVERY DAY
- TAKE UP TO 2-4 CAPSULES OF SATIETY DAILY

Motivation: Healthy living is a journey, not a destination.
Keep setting new goals and enjoy the process!

FINAL CHECK IN

WHAT'S YOUR BIGGEST WIN THIS MONTH?

HOW WILL YOU CONTINUE YOUR HEALTHY HABITS?

TruHealth Cleanse drink is designed to be consumed as part of the 30-day program. For those choosing to enjoy up to four servings per day, you will need two boxes. If you choose to take Satiety Capsules twice daily (4 capsules total) you will need two bottles.

legumes and beans

- Lentils
- Black beans
- Chickpeas (garbanzo beans)
- Kidney beans
- Split peas
- Edamame

**HEY TRU, BUILD A MEAL PLAN FOR 5 DAYS,
USING A GOOD VARIETY OF THESE INGREDIENTS**

How to Create a Caloric Deficit:

Physical activity is crucial for overall health and wellness—not just for weight management, but for feeling energized, reducing stress, and improving your mood. Regular exercise helps support your metabolism, maintain muscle mass, and burn additional calories, making it easier to achieve and maintain a caloric deficit.

Benefits of Regular Exercise:

Boosts Metabolism:

Physical activity helps your body burn more calories, even when you're at rest.

Enhances Mood:

Exercise triggers the release of endorphins—your body's natural mood enhancers.

Supports Muscle Mass:

Strength training preserves muscle as you lose fat, helping you look toned and feel strong.

Improves Sleep:

Burn more calories in less time with a quick HIIT workout, which combines short bursts of intense activity with periods of rest.

Exercise Ideas for Every Level:

Walking:

Start with a 30-minute walk each day to improve cardiovascular health and boost your energy.

Strength Training:

Incorporate bodyweight exercises, free weights, or resistance bands to build muscle and burn fat.

Yoga:

Improve flexibility, balance, and mindfulness with a gentle yoga practice.

High-Intensity Interval Training (HIIT):

Burn more calories in less time with a quick HIIT workout, which combines short bursts of intense activity with periods of rest.

Aim for at least 150 minutes of moderate-intensity exercise or 75 minutes of vigorous-intensity exercise per week for optimal health. Whether you're hitting the gym or enjoying a brisk walk, every step is a step toward a healthier, stronger you!

**HEY TRU, MAKE ME A WORKOUT PLAYLIST
THAT IS INDIE POP MEETS 90'S JAMS**

CELEBRATING PROGRESS WITH BEFORE AND AFTER PICTURES

Before and After pictures are not just about physical changes you can see; they are about celebrating your journey. They serve as reminders of your resilience, determination, and progress. Remember the journey isn't about achieving a certain look or number on a scale. It's about embracing health, loving yourself, and acknowledging that every step forward is a victory.

1

Consistent Background and Lighting: To track your progress, take your before and after photos in the same location with the same lighting. It better highlights the differences in your body composition.

2

Uniform Clothing: Wear the same clothing in your photos for consistency. Try form-fitting clothes like workout gear.

3

Multiple Angles: Capture your transformation from all angles. Front, side, and back. This provides a full view of your progress.

4

Regular Intervals: Take photos at fixed intervals, such as monthly, to track gradual changes over time.

COMPLIMENTARY PRODUCTS
