DAIRY FREE · SOY FREE · VEGAN FRIENDLY · VEGETARIAN FRIENDLY · LOW GLYCEMIC · NO MSG · GLUTEN FREE · NON GMO

Through a powerful blend of broad-spectrum digestive enzymes and natural botanical ingredients, combined to target an array of foods, GI-Zyme® is designed to help improve digestion and the absorption of nutrients from food, while reducing typical discomfort that can be caused by normal eating.*

Unlike most enzyme supplements, GI-Zyme capsules offer digestive enzymes at a wide range of pH levels designed to breakdown many types of food, throughout the different stages of digestion. As a result, GI-Zyme supports the microbiome with more complete digestion and helps maximize nutrient potential.*

GI-Zyme capsules are formulated to:

- Support a healthy microbiome.*
- May help ensure that the maximum level of nutrient absorption is attained.*
- Assist in breaking down proteins, fats, carbohydrates, fibers, vegetables.*
- Provide enzymes functioning at a wide range of pH activities (pH 2.0-8.0).*
- May provide support for immune system.*
- Supplement natural digestive enzyme levels due to normal aging, diet or other digestive needs for support.*
- May support gut-brain health by enhancing the microbiome.*
- May ease typical discomfort that is caused by normal gas/bloating after eating.*

FUN FACT

Approximately 65 percent of the human population has a reduced ability to digest lactose after infancy. Lactose intolerance in adulthood is most prevalent in people of East Asian descent, with 70 to 100 percent of people affected in these communities. Lactose intolerance is also very common in people of West African, Arab, Jewish, Greek, and Italian descent.†
