ADVANCED JOINT SUPPORT FORMULA*
DIETARY SUPPLEMENT
60 CAPSULES (30 SERVINGS)

Hardworking Joints Deserve High-Performance Nutrition.*

4 DAYS
to feel a statistically significant difference*

GLYCAN-4fx™
TruEdge™ · 60 Capsules (30 Servings) · Item #16101

THE SCIENCE BEHIND THE DIFFERENCE

Movement Confidence. Structure. Resilience.*

Our Glycan-4fx™ supplement is an advanced, multi-glycan daily supplement meticulously designed to support flexibility, connective tissue integrity, and overall joint health for confident, comfortable movement.* Powered by a proprietary fish collagen complex containing proteoglycans, and expertly blended with phosphatidylserine, this **patent-pending complex** is scientifically studied to **support physical activity** and mobility in as little as **4 days**.*

Unlike traditional joint supplements that often only provide basic building blocks, Glycan-4fx goes further. It delivers functional **proteoglycans** that act directly as the structural scaffolding of your cartilage. This advanced approach helps maintain strong, flexible joints and support daily movement and long-term mobility.*

By supporting the body's natural repair processes, it is also shown to help significantly **improve joint comfort** in as little as 1 week, allowing you to stay active and engaged.*

Glycans you can feel.*

SUPPLEMENT FACTS

Supplement Facts		
Serving Size 2 capsules Servings Per Container 30		
Amount Per Serving	% Daily Value

Other Ingredients: Hydroxypropyl methylcellulose, microcrystalline cellulose, magnesium stearate.

US.16101.82.001

▲ Allergen note: Contains fish (sturgeon).
Not suitable for those with fish allergies.

THE POWER TRIO — PATENT-PENDING COMPLEX

01 · STRUCTURAL

Fish Collagen
42 mg | 12.5 mg
proteoglycans

THE STRUCTURAL ARCHITECT

High-purity fish collagen from sturgeon, provides proteoglycans. Proteoglycans are integral components of connective tissue that directly impact joint comfort and resilience. This unique complex helps support the structural integrity of cartilage, contributing to the support for joint health and the body's natural collagen processes.*

02 · CELLULAR

Phosphatidylserine
100 mg |
Sunflower-sourced

THE STRESS ADAPTOR

High-purity, soy-free phosphatidylserine sourced from sunflower. This component helps the body adapt to physical stress and supports overall physical performance in active individuals. By aiding in typical day-to-day stress recovery, it helps prime your body for continuous, healthy movement.*

03 · GLYCAN

Manapol®
25 mg | Aloe vera
inner leaf

THE GLYCAN ADVANTAGE

The world's purest Aloe vera acemannan extract, providing foundational support for cellular health and overall well-being. This premium glycan source supports the body's natural communication and wellness at the cellular level.*

THE GLYCAN-4FX ADVANTAGE

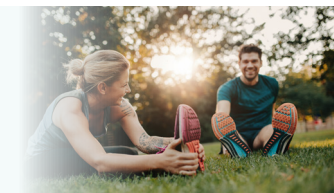

Supports mobility in as little as 4 days*

Scientifically studied to deliver statistically significant improvement in mobility faster than conventional joint supplements.*

Supports flexibility & ease of movement*

Supports range of motion for daily activities, exercise, and an active lifestyle.*

Helps maintain joint health and resilience*

Proteoglycans help maintain strong, flexible joints by supporting the structural integrity of cartilage.*

Supports the body's natural collagen network*

Our proprietary fish collagen/phosphatidylserine/aloë vera complex provides the proteoglycan architecture that helps maintain natural collagen processes and long-term joint function.*

Helps the body adapt to physical stress*

Phosphatidylserine supports stress adaptation, supporting overall physical performance for active individuals.*

YOUR DAILY MOBILITY PROTOCOL

- 1 **Take 2 capsules** daily with or without food. Consistent daily use is key to achieving optimal results.
 - 2 **Experience Rapid Results** Scientifically shown to support physical performance and enhance mobility in as little as 4 days,* while also helping to improve overall joint comfort within just 1 week.*
 - 3 **Pair with BounceBack** for complete two-tier mobility support — structural support (Glycan-4fx) + recovery support (BounceBack).
- ! **Allergen note: Contains fish (sturgeon).** Not suitable for those with fish allergies.

YOUR FOUNDATION FOR CONFIDENT MOVEMENT

TIER 2 · STRUCTURAL SUPPORT

Glycan-4fx

Supports the structure that helps allow mobility — connective tissue, cartilage, and the collagen network. Acts at the architectural level of joint health by providing beneficial proteoglycans.*

+ PROTOCOL FOR MOBILITY

TIER 1 · RECOVERY SUPPORT

BounceBack®

Supports how the body responds to stress — postactivity recovery and the body's natural response to physical stress.*

ADDITIONAL BENEFITS

Supports joint comfort*

A scientifically studied blend designed to support joint comfort, flexibility, and everyday movement.*

Helps maintain connective tissue integrity*

Provides the beneficial components to help keep tissues strong and resilient.*

Supports healthy connective tissue*

Promotes the long-term health of the structures that support your joints.*

Supports the body's natural collagen network*

Aids in maintaining the framework that includes your joints and connective tissue.*

Contains proteoglycans from proteins*

The functional building blocks required for optimal cartilage health support.*

MOVE FREELY. LIVE FULLY.
